## PUBLIC NOTICE FOR CITIZENS OF RIDGELAND

The City of Ridgeland has begun developing a solid waste management plan to meet the future solid waste collection and disposal needs of our citizens. The City will be assessing the waste our residents and stakeholders will generate over the next 20 years, allowing us to ensure continued access to quality waste management services. We will also be evaluating how to improve our waste management while safeguarding the environment for all in Ridgeland.

We will be working hard to serve our citizens and stakeholders by providing quality waste management options including our current garbage collection, extraordinary recycling program, and other future enhancements. Come back to this site occasionally and see where we are and what we have planned.

As we commence our journey in developing this plan, we want to hear from you. If you have any comments or ideas you think we should consider, please feel free to send them to Public Works Director Mike McCollum at [mike.mccollum@ridgelandms.org](mailto:mike.mccollum@ridgelandms.org). We look forward to your participation and input.
